EDUCATION

Institute Of Aeronautical Engineering, Hyderabad	Sep 2023 – 2027
B.Tech in Computer Science and Engineering (CSE)	Current GPA: 8.11
TSWREIES, Narayankhed	2021 – 2022
Intermediate	Percentage: 91.06
Shantiniketan Vidhyalaya High School, Zaheerabad	2019 – 2020
SSC	CGPA: 10

TECHNICAL SKILLS

Languages: Python, Java
Frameworks: TensorFlow, PyTorch, LangChain, FastAPI
Libraries: NumPy, Pandas, OpenCV
Web: HTML, CSS, JavaScript
Database: MySQL
Cloud/Tools: AWS, Docker, Git, GitHub, VS Code, Jupyter Notebook
Core: DSA, DBMS, OS, Computer Networks
AI/ML: Machine Learning, Deep Learning, Generative AI, LLMs, NLP

INTERNSHIPS

Deep Learning Internship	May 2025
CITD,MSME Tool Room, Hyderabad	
- Worked on real-world deep learning problems and model optimization using TensorFlow and PyTorch.. - Developed and optimized deep learning models for image classification and prediction using real-world datasets..	

PROJECTS

AI Chatbot Application	GitHub	2025
- Developed a full-stack AI chatbot using Next.js, React, and Vercel AI SDK. - Technologies: Next.js, TypeScript, React, AI SDK, PostgreSQL, Tailwind CSS		
AI Powered Penetration Testing Framework (AegiSec)	GitHub	2026
- Built an AI-driven autonomous penetration testing framework. - Integrated LLM-based orchestration with standard security tools, generated structured JSON and HTML vulnerability reports.		
End-to-End Insurance Claims Automation	GitHub	2025
- Developed an AI-powered insurance claims automation platform using React, Tailwind CSS, FastAPI, LangChain, and LangGraph. - Built scalable REST APIs and database management using SQLite/PostgreSQL.		

CERTIFICATIONS

• Oracle Cloud Infrastructure 2025 – Certified Generative AI Professional	October 2025
• Samsung Innovation Campus – Artificial Intelligence	Feb 2026
• Java Programming - Infosys Springboard	September 2024

CODING PROFILES

- LeetCode: Solved 150+ problems focusing on data structures and algorithms.
- GeeksforGeeks: Regularly solving the Problem of the Day.
